**THE FIRST WEEK OF MAY** was recognized as **National Drinking Water Week**, however remember to conserve and protect our drinking water throughout the year. Because drinking water is so easy to obtain by simply turning on a tap it is often taken for granted. Behind each gallon of drinking water are the combined efforts of many professionals: scientists, engineers, and water plant operators who keep the water safe to drink, available at all times and affordable.

Please help to conserve our precious drinking water by obeying the water conservation rules. Additional water conservation information and tips may be found at [www.wintergarden-fl.gov](http://www.wintergarden-fl.gov) or <http://www.sfwmd.gov>
